September 2023

Dear Minister,

**NSW INDUSTRIES & COMMUNITIES UNITED IN SUPPORT OF NATIVE FORESTRY**

We are writing to you in light of the ongoing co-ordinated environmental protests and misinformed media reports about native forestry in NSW.

As your Government begins to shape key policies, we want to make very clear the ongoing value and legitimacy of native forestry in NSW.

As a business operating in NSW which benefits from and depends on the timber industry, with this letter we add our voice to the chorus of strong and enduring community support for native forestry across the State.

<b>Our Business</b>	
<b>Our Location</b>	
<b>Years of Operation</b>	
<b>We Supply/Service</b>	
<b>You Should Know</b>	

Since 1906, Timber NSW has been the representative organisation of the timber and forest products industry in NSW. We also wholeheartedly endorse and recommend to you the detailed joint submission Timber NSW and other timber groups have provided in support of native forestry in NSW.

**We ask our elected representatives in the NSW Parliament to listen to the voices of their communities and provide continuing support for native forestry in NSW.**

Yours faithfully,
