Dear Minister,

NSW INDUSTRIES & COMMUNITIES UNITED IN SUPPORT OF NATIVE FORESTRY

I am writing to you in light of the ongoing co-ordinated environmental protests and misinformed media reports about native forestry in NSW.

As your Government begins to shape key policies, I want to make very clear the ongoing value and legitimacy of native forestry in NSW.

As a member of the community which benefits from and depends on the timber industry, with this letter I add my voice to the chorus of strong and enduring community support for native forestry across the State.
